

UNITED STATES INTERNATIONAL TRADE COMMISSION  
Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION  
of the 110<sup>th</sup> Congress<sup>1</sup>**

[Date approved: June 17, 2008]<sup>2</sup>

**Bill No. and sponsor:** H.R. 4744 (Mr. Bob Inglis of South Carolina).

**Proponent name,<sup>3</sup> location:** Michelin North America, Inc., Greenville, SC.

**Other bills on product (110<sup>th</sup> Congress only):** None.

**Nature of bill:** Extension of temporary duty suspension through December 31, 2011.

**Retroactive effect:** None.

**Suggested article description(s) for enactment (including appropriate HTS subheading(s)):**

Machine tools for working wire of iron or steel, numerically controlled, the foregoing certified for use in production of radial tires designed for off-the-highway use and for use on a rim measuring 63.5 cm or more in diameter (provided for in subheading 4011.20.10, 4011.61.00, 4011.63.00, 4011.69.00, 4011.92.00, 4011.94.40, or 4011.99.45), and parts thereof (provided for in subheading 8463.30.00 or 8466.94.85).

**Check one:**      Same as that in bill as introduced.  
                   Different from that in bill as introduced (see Technical comments section).

**Product information, including uses/applications and source(s) of imports:**

Machine tools (and their related parts) for working wire for use in producing off-the-highway radial tires are custom-built machines that weave individual wires into stranded wire for the tire carcass, steel tire cord belts<sup>4</sup>, or tire bead wire for tire beads.<sup>5</sup> These machines are numerically controlled.<sup>6</sup> The complete machines are classified in HTS subheading 8463.30.00, a provision for machines for working wire, while the parts covered by the bill are classified in HTS subheading 8466.94.85. The principal import source of these machines is France.

<sup>1</sup> Industry analyst preparing report: Dennis Fravel (202-205-3404); Tariff Affairs contact: Jan Summers (202-205-2605).

<sup>2</sup> Access to an electronic copy of this memorandum is available at [http://www.usitc.gov/tata/hts/other/rel\\_doc/bill\\_reports/](http://www.usitc.gov/tata/hts/other/rel_doc/bill_reports/).

<sup>3</sup> The sponsor/proponent did not identify any additional beneficiaries of this bill.

<sup>4</sup> Steel cord belts are composed of steel filaments (i.e., wires) woven together to form cord. The cord is then woven into a belt that is used to reinforce the rubber in radial tires.

<sup>5</sup> Tire bead is a loop of high-strength steel cable coated with rubber that is positioned on the inner diameter of the tire to seat the tire on the wheel rim.

<sup>6</sup> The term "numerically controlled" means computer numerically controlled, in which the control system adds fully automatic programmable positioning and feed rate control of the machine's axis movement relative to the workpiece, as well as automatic control of other functions.

**Estimated effect on customs revenue:**

<b>Total Estimated Revenue Loss for this Bill</b>					
	2009	2010	2011	2012	2013
Customs revenue loss	\$0	\$11,300	\$11,300	\$11,300	\$11,300

<b>HTS subheading: <u>8463.30.00</u></b>					
	2009	2010	2011	2012	2013
Col. 1-General rate of duty	4.4%	4.4%	4.4%	4.4%	4.4%
Estimated value <i>dutiable</i> imports	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000
Customs revenue loss 1/	\$0	\$6,600	\$6,600	\$6,600	\$6,600

1/ There is an existing duty suspension under HTS heading 9902.84.83 that expires on December 31, 2009. Therefore, there will be no customs revenue loss related to this bill in 2009.

Source of estimated dutiable import data: Commission estimates based on U.S. Government statistics and industry estimates.

<b>HTS subheading: <u>8466.94.85</u></b>					
	2009	2010	2011	2012	2013
Col. 1-General rate of duty	4.7%	4.7%	4.7%	4.7%	4.7%
Estimated value <i>dutiable</i> imports	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000
Customs revenue loss 1/	\$0	\$4,700	\$4,700	\$4,700	\$4,700

1/ There is an existing duty suspension under HTS heading 9902.84.83 that expires on December 31, 2009. Therefore, there will be no customs revenue loss related to this bill in 2009.

Source of estimated dutiable import data: Commission estimates based on U.S. Government statistics and industry estimates.

**Technical comments:<sup>7</sup>**

Two types of modifications to the existing article description are suggested on page 1. First, to reduce grammatical confusion, it is suggested that the criterion “numerically controlled” be moved so that it more clearly relates to the machines. Second, HTS subheading 4011.62.00 has been dropped from the parenthetical reference to the provisions covering the end product tires, although that subheading is in the description of existing heading 9902.84.83. Subheading 4011.62.00 refers to tires with a rim not exceeding 61 cm, but the language for HTS heading 9902.84.83 limits the class of covered machine tools to those for working iron or steel used in the production of radial tires “for use on a rim measuring 63.5 cm or greater.”

---

<sup>7</sup> The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.

110TH CONGRESS  
1ST SESSION

# H. R. 4744

To extend the temporary suspension of duty on certain manufacturing equipment.

---

## IN THE HOUSE OF REPRESENTATIVES

DECEMBER 17, 2007

Mr. INGLIS of South Carolina introduced the following bill; which was referred to the Committee on Ways and Means

---

## A BILL

To extend the temporary suspension of duty on certain manufacturing equipment.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. CERTAIN MANUFACTURING EQUIPMENT.**

4 (a) IN GENERAL.—Heading 9902.84.83 of the Har-  
5 monized Tariff Schedule of the United States (relating to  
6 certain manufacturing equipment) is amended by striking  
7 “12/31/2009” and inserting “12/31/2011”.

8 (b) EFFECTIVE DATE.—The amendment made by  
9 subsection (a) applies to goods entered, or withdrawn from

- 1 warehouse for consumption, on or after the 15th day after
- 2 the date of enactment of this Act.
